2011 STRT Meetings

Term 1: March 29th

Term 3: August 9th & 10th

Term 4: October 25th

1:1 Network Days

With a number of schools rolling out 1:1 laptop programs or heading this way in the future, we are pleased to have created a series of 1:1 conference days for school leaders & teachers in 1:1 environments to attend.

These days will be a mixture of keynote speakers and hands on workshops for attendees. The days will continue to serve as a formation of a Sandhurst 1:1 network for peer/school collaboration and support for those schools and teachers delving into such an exciting program.

Go to www.sandhurst121network.wikispaces.com for further information and to access resources from previous days.

Teacher ICT Conferences

The annual teacher technology conference series will be on again in Term 2, 2011. All staff at schools are invited to take part in these 2 day events, in term 2 in Wangaratta and Echuca. Come for both days, 1 day or even 1 workshop, as there will be a variety of hands on sessions about using ICT in education and the classroom.

Go to www.sandhurstictconferences.wikispaces.com for further information and to access resources from previous conferences.

ReportMaker Training

These days are specifically set aside for those responsible at schools for the set up and organisation of school reports using the Sandhurst ReportMaker software. On these days attendees will have time to organise the reports ready for distribution and have access to support to help solve any issues that may arise. More than 1 attendee from each school is recommended.

Joomla! Website Training

These days are for those responsible for the organisation of their school Joomla! website. The focus for these days is on continuing to develop the potential of school websites as a way of showcasing the learning community of your school. More than 1 attendee from each school is recommended.

ICON School Leaders Meetings

These days are specifically set aside for those responsible in schools for the upcoming implementation of the Integrated Catholic Online Network (ICON) for Sandhurst schools.

These meetings will be for keeping schools up to date with information regarding ICON and any specific hands on training associated with ICON projects for schools. More than 1 attendee from each school is highly recommended.

How to register for events

To register for events, click on the underlined 'Register Term' links under the event headings.
